

External Works

London Borough of Southwark, Bonamy Estate

Highlights

The London Borough of Southwark appointed Axis to undertake the External Works programme on 360 properties on the Bonamy Estate in in Bermondsey, south east London.

The scope of External Works included replacing the existing aluminium windows with UPVC windows to match the existing colour schemes. Fascias and soffits were overclad in UPVC and rainwater goods were renewed. Repairs were undertaken to the communal front entrance doors.

Axis redecorated externally and to communal areas internally. New vinyl flooring was also laid to the communal areas with new entrance matting.

FRA works included upgrading or replacing front entrance doors, firestopping works and replacing lift hatches to provide fire integrity.

Specifications
